

PRECISION QUALITY CONTROL INSTRUMENTS SINCE 1958

Wood Chip Moisture Tester Model FS-200HT

The FS-200HT is a portable moisture meter for quickly checking humidity of wood chips. Simply press the instrument firmly onto the wood chips and the absolute moisture content value will be displayed on the LCD display.

Features

- Measures moisture content in seconds
- No sample preparation needed
- Two-year warranty
- Automatic temperature compensation

The FS-200HT makes it easy to determine if your wood chips or plant material are ready to be used for heating. Quickly check your incoming deliveries and optimize your heating process by ensuring moisture content levels are optimal, reduce failure and prevent too long drying periods.

The FS-200HT is supplied in a foam-fitted carrying case.

Model FS-200HT Wood Chip Moisture Tester

Specifications

Measuring range	up to 35%	Power supply	9V alkaline or NiCad battery
Temperature compensation	Yes, automatically	Battery lifetime	Approx. 4000 measurements
Measuring depth	Max. 7.8" (200mm)	Current consumption	Approx. 5 mA
Resolution	1.0% moisture of wood chips	Display	3-digit, LCD display
Measurement technique	Conductance-based	Dimensions	3.9" x 5.46"x 12.09" (100 x 140 x 310mm)
Calibration accuracy to reference material	± 4%	Complete kit	FS-200HT moisture meter, plastic case, battery, manual
Operating temperature	41°F to 95°F (+5°C to +35°C)	Warranty	2 years
